YOGASLEEP®

My Hushh does not turn off/change sounds/volume does not work

Please check if the unit is locked. You can do this by pressing POWER button and the S (SOUND) button together. The little orange light will blink 3 times to indicate the lock/unlock has worked

My Hushh is turning off after a few minutes

Please check if your unit is in fact charging when connected the USB charger. When connected to charge the light orange light will produce a slow blink. If the light is not blinking or it is producing a fast blink this indicates the unit is not charging.

- Do you need to reposition the cord in order for the unit to charge? – Please replace
- It is important you are using high quality power adapter.
- Please try another USB cord if you have one available as the cord may need replacing – Please replace if unit still does not charge

My DOHM will not turn on

- Can you smell a slight burning smell? – Please replace
- Did you hear a small pop when you turned the unit on? – Please replace

My plug in Yogasleep does not turn on

- Do you need to reposition the cord in order for the unit to charge? – Please replace
- It is important you are using high quality power adapter.
- Please try another USB cord if you have one available as the cord may need replacing – Please replace if unit still does not charge

My unit is making a strange crackling sound

The unit may have dust stuck in the speaker. You can try to use a vacuum (on a low setting) to clean the unit. Please replace if this does not work

Once you have gone through the above for your Marpac issues there is a new spreadsheet that needs to be completed. We would like for our retailers to take responsibility for testing the unit to ensure it is in fact faulty before we can issue a credit.

Once the unit is tested please destroy of it and send through a photo to indicate destruction is complete.

At any time if an issue not covered above or you need help clarifying if a unit is faulty please give us a call on 09 2224700 or send an email.
